The screenshot displays the L&B eBooks Platform Portal. At the top, there is a header with the L&B Library & Book logo and a language selection menu (Language : 繁體中文 | 簡體中文 | English | 日本語). Below the header is a navigation bar with categories: General, Arts & Humanity, Social Science, Science, Technology, Medicine, and News. A search bar is located below the navigation bar, with a dropdown menu set to 'All'. To the right of the search bar are buttons for 'Search' and 'Advanced Search'. Below the search bar is a 'Most Popular' section with a grid of book covers. To the right of this section is an orange box labeled 'Search Function'. Below the 'Most Popular' section is a 'Newest' section with a grid of book covers. To the right of this section is an orange box labeled 'Catalogue'. Below the 'Newest' section is a 'Featured' section with a grid of book covers. Below the 'Featured' section is a 'Favorites' section with a grid of book covers. At the bottom of the page is a copyright notice: 'Copyright Claim: 碩亞數碼科技有限公司 © 2009 ASIAWORLD Digital Technology Co., Ltd. All Rights Reserved'.

SEARCH FUNCTION

Simple Search

User can input keyword in the dialog box to search the related eBooks and system will display the search result as the following graph below:

If there are too many records, please use "Refine Results" to narrow down the search range.

Refine Results

The screenshot shows the 'Refine Results' sidebar on the left side of the L&B Library & Book interface. The sidebar has a vertical label 'Refine Results' on its left edge. At the top, it displays 'Total 804 Record(s)' with a close button. Below this is a search input field and a 'Search' button. The sidebar is divided into three main filter sections, each with a 'Filter' button and a 'More Options' link:

- Author:** Includes checkboxes for '常玉田 (7)', '北京市地方志编纂委员会 (5)', and '李德荣 (5)'.
- Publisher:** Includes checkboxes for '对外经济贸易大学出版社 (137)', 'Hong Kong University Press (87)', and '清华大学出版社 (78)'.
- Publication Year:** Includes checkboxes for '2005 (135)', '2004 (112)', and '2007 (105)'.

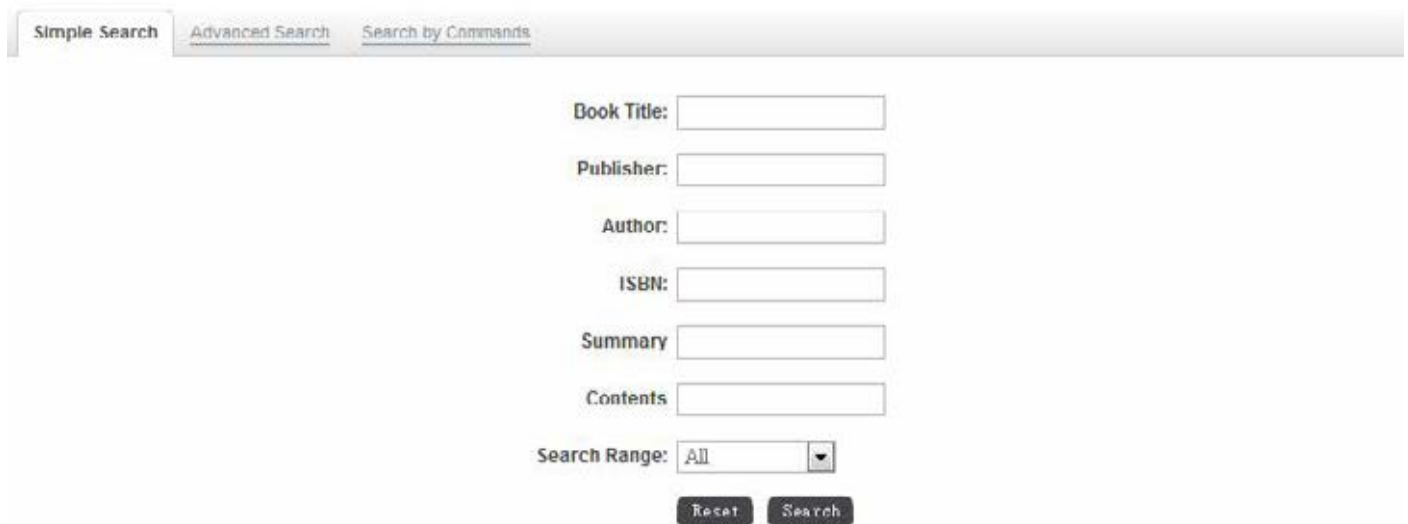

User can use "Author", "Publisher", and " Publication Year" to identify and filter related eBooks. Each catalog has several sub-catalogs and every sub-catalog provides eBook number in the end for user's reference.

In the same time, user also can use "Advanced Search" to search specific eBooks.

Advanced Search

Advanced Search provides "Simple Search", "Advanced Search", and "Search by Commands" functions. Here are their introduction below:

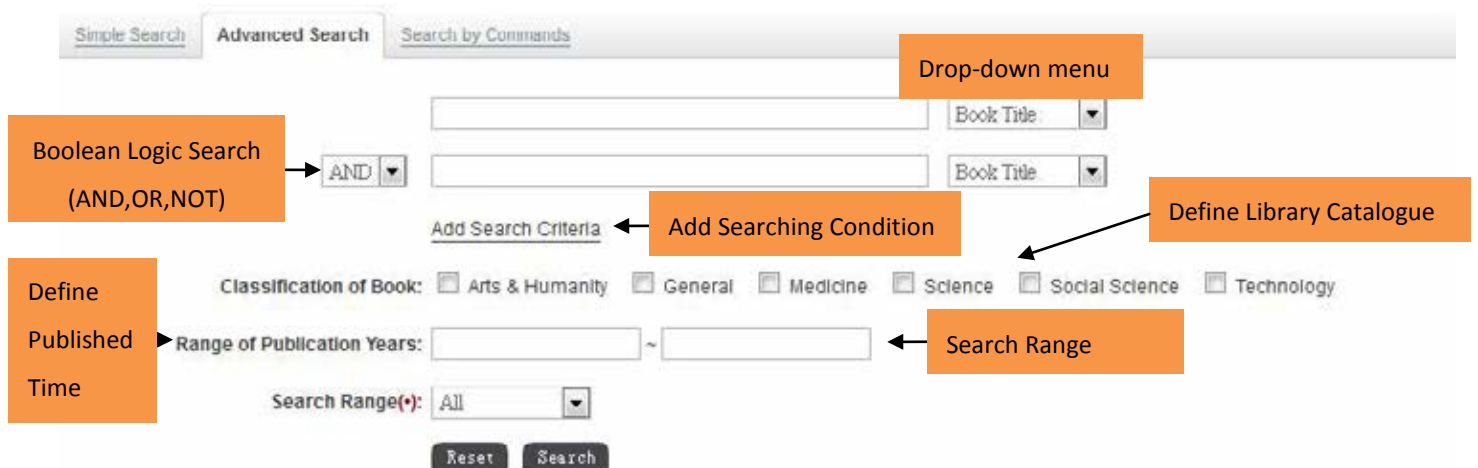

Simple Search

The Simple Search interface features a horizontal tab bar with three options: "Simple Search" (selected), "Advanced Search", and "Search by Commands". Below the tabs, there are six input fields stacked vertically, each with a label to its left: "Book Title:", "Publisher:", "Author:", "ISBN:", "Summary", and "Contents:". Below these fields is a "Search Range:" label followed by a dropdown menu currently set to "All". At the bottom are two buttons: "Reset" and "Search".

Simple Search provides "Book Title", "Publisher", "Author", "ISBN", "Summary", "Contents", and "Search Range" functions. User can input keyword in the proper dialog box. "Search Range" can help user to limit the search in all or purchased books.

Advanced Search

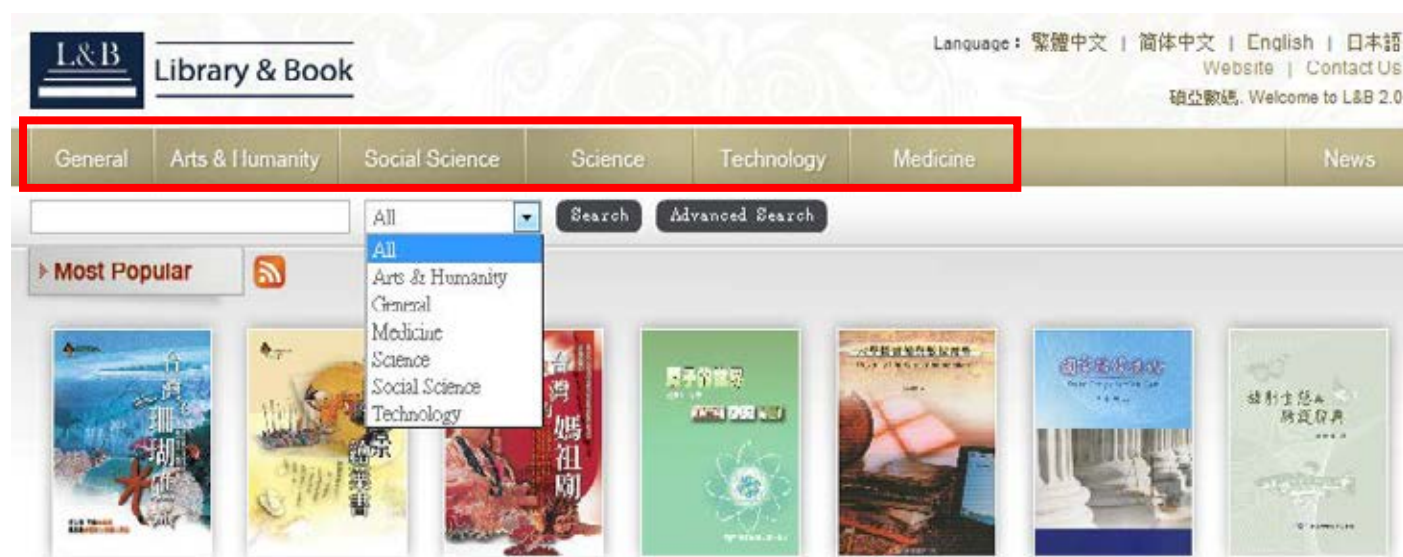

The Advanced Search interface includes the same horizontal tab bar as the Simple Search page. The main area contains several search options with orange callout boxes providing annotations:

- Boolean Logic Search (AND,OR,NOT):** An annotation box points to a dropdown menu currently showing "AND".
- Drop-down menu:** An annotation box points to a dropdown menu currently showing "Book Title".
- Add Searching Condition:** An annotation box points to the "Add Search Criteria" text.
- Define Library Catalogue:** An annotation box points to the "Classification of Book:" section, which includes checkboxes for "Arts & Humanity", "General", "Medicine", "Science", "Social Science", and "Technology".
- Define Published Time:** An annotation box points to the "Range of Publication Years:" section, which includes two input fields separated by a tilde (~).
- Search Range:** An annotation box points to the "Search Range(+):" dropdown menu, which is currently set to "All".

At the bottom of the interface are "Reset" and "Search" buttons.

SUBJECT BROWSE

L&B eBook platform provides six subject categories for users' browse. Users can browse related eBooks by different subject.

SEARCH RESULTS

Image Lists

L&B eBooks platform provides three kind of search results indication mode. There are "Image Lists", "Image with Text", and "Text Only".

- Image : It will indicate information about Record Number, Book Cover, and Book Title within image browse mode.

The screenshot shows the L&B Library & Book website interface. At the top, there's a navigation bar with categories: General, Arts & Humanity, Social Science, Science, Technology, Medicine, and News. A search bar contains the text 'marketing'. Below the search bar, the page indicates 'Homepage > Search Results' and shows '1-16 Total 804 Record(s)'. The search mode is set to 'Image' (highlighted with a red box), with options for 'Image with Text' and 'Text Only'. The results are displayed in a grid of four book covers. The first cover is '当代国际商务英语教程' (Contemporary International Business English Tutorial) by 丁文京 (Ding Wenjing), published by 北京大学出版社 (Peking University Press). The second cover is '国际营销专业英语' (International Marketing Professional English) by 江春 (Jiang Chun), published by 对外经济贸易大学出版社 (University Press of International Business and Economics). The third cover is a placeholder for '中小企业营销能力研究:以中小食品企业为例' (Research on Marketing Ability of Small and Medium Enterprises: Taking Small Food Enterprises as an Example). The fourth cover is '新编商务英语阅读教程' (Newly Compiled Business English Reading Tutorial) by 陈琳 (Chen Lin), published by 中国对外翻译出版公司 (China Foreign Translation and Publishing Company).

- Image with Text : It will indicate information about Record Number, Book Cover, Book Title, Author, ISBN, Publication Year, and Publisher within image with text mode.

- Text Only : It will indicate information about Book Title, Author, ISBN, Publication Year, and Publisher with text only mode.

Detail Book Information

In searching results, if user clicks the book title, system will popup the other window and show its book detail information.

- Detail bibliographic information includes two parts below:

1. Book Copyright Information : It will indicate Book Cover, Book Title, Author, Publisher, Publication Year, ISBN, Edition, Classification, Online Reading, Download, and Installation Help.

Table of Contents
